

2027 Summer Independent Study Abroad

The programs listed below are independent summer study abroad opportunities that are currently offered by external institutions. **These programs are not affiliated with or endorsed by The Ohio State University. Students interested in any of these programs should conduct their own research** and apply directly through the program's official website.

Please note: Program availability, dates, costs, eligibility requirements, and application deadlines for Summer 2027 are subject to change. Please check each program's official website for the most up-to-date information.

We are currently working toward developing OSU-approved faculty-led programs for Summer 2028. More information will be shared as these opportunities become available. For any questions, please contact Professor Xuan Ye (ye.914@osu.edu).

Remember to plan ahead and register your travel: Students participating in independent, Ohio State-affiliated travel must complete the university's student travel registry. In addition, students traveling to China must also submit a petition to the International Travel Review Committee (ITRC) and receive approval before traveling. Complete these steps as early as possible to allow enough time for the review and approval process. Once completed, students also have access to important university health, safety and emergency support resources while abroad.
